love for music will have the effect to keep our boys in school. Parents, see to it that the books are furnished your boys, and also use your influence to have them learn to sing, and you will never parent!

There is nothing that so curbs the unruly nature that needs to be curbed, as to sing a song full of meaning, led by a teacher whose whole soul is in the work. ### SCHOOL MELANGE.

The West Virginia legislature is just now having trouble of its own and is saying this we do not propose to enter notes like these, but we only mention it tion would be a panacea for all such ills as legislative bodies may be heir to. The right kind of an education will proluce men that will not go against the pressed at the polls, that will not do ot have such a greed for the spolls of office as to cause them to disregard the rights of their fellowmen. The right kind of an education will produce men that money cannot buy, but they will be men of such integrity of character that the state may point to them as the Roman mother did to her sons, and say "these are my Jewels." When we have such men the millenium in politics will have come. Now don't anybody say this is party politics. It is no such a thing, but it is the kind of politics that West Virginia needs very badly Just now, and we refer to the kind of men that our schools are trying to furnish the state. It is character that makes the man. And men of character are in great demand just now, not only in West Virginia, but in all other states. May the time soon come when such men dominate the affairs of state throughout the length and breadth of our land. Make our schools what they should be and you make our statesmen what they should be, and the stars and stripes will wave over free America until the end of time. So mote it be.

erning the doings at Charleston, which the young and growing state of Mon-tana, it is stated that the salaries paid to county superintendents are \$1,800, the trip did not care especially to be in \$1,500 and \$1,200 a year, according to the number of schools. Nearly all the states and states a year, according to the number of schools. Nearly all the county superintendents of that state are ladies. The fact is that West Virginia is away behind in the paying of her county superintendents. It is poor is any common to the paying of her county superintendents. It is poor economy to pay low safaries and secure the services of incompetent men. All money spent in paying good salaries to competent county superintendents will yield a rich return, even in dollars and cents to the general wealth of a state does. But the great wealth of a state does. cents to the general wealth of the state.
But the great wealth of a state does
not consist of the amount of money in
the treasury, but it consist in the developed brain and brawn of its people.
Dr. D. B. Purinton, at one time vice
president of our state university, used
to say that West Virginia brain and
West Virginia brawn must develope Virginia brawn must develope West Virginia brawn must develope West Virginia, if ever it is properly de-veloped as a state. There is more in this than appears at first sight. While we welcome good citizens from other states and we owe them much, still our best development is coming from those who come to stay and those who are of the manor born. Let our present legis-lature then, from this time forth redeem itself by doing everything in its power to make our institutions of learning more efficient. This can be done for we have the money to do it, and the writer believes we have the men in the legislature that so value the work of our schools as to make liberal appropriations wherever needed.

chools in persuading parents to buy the necessary books for the study of music; especially is this the case with regard to those who have none but boys regard to those who have none but boys in the school. Parents have told the writer that music was all right in the school as far as girls are concerned, but boys did not care anything about it. I wish it could be whispered in the car of every parent who has a boy in school that he is making the mistake of his life when he even hints such doctrine in the presence of that boy. There is nothing so reflaing to a boy's nature as good music, and there is nothing that nothing so refining to a boy's nature as good music, and there is nothing that has more influence in keeping him from going wrong, if he is inclined that way, than to know how to sing well; and-many of our boys are learning to sing well at school, but it is a sad fact that a great namy of them take no interest in music, no doubt from the very fact that the impression is credited at home, that it does not show into manhood for a boy to know how to sing. To know how to know to sing. To know how to know to the manhood for a boy to know how to the machod until they go through the bigh school or until they realize for themselves the advantage of school training, is the great collectional problem confronting us just now. The writer firmly believes that a

should take Morrow's Kid-ne-olds in preference to any other kidney peparation. In the first place, Kid-ne-olds are a scientific preparation. Second, they are not pills, but Tablets, which is the scientific form of putting up medicine; they do not get hard and pass through the system whole, but dissolve and take effect immediately. Third, there are never any bad effects from their use, like there is from minety per cent, of other preparations. Fourth, most all kidney preparations. Fourth, most all kidney preparations are filled up with something to act on the bowels. Morrow's Kid-ne-olds do not act on the bowels because some people do not need a cathartic. They simply need something to act on the kidneys, and when you take any other kidney preparation the bowels are moved perhaps severely when they should not be disturbed.

There are many other reasons why you should take Morrow's Kid-ne-olds and these reasons you will find out by using them. We give you the widence of Mrs, Wm, H. Rayl, of 785 Market street, who has lived here for twenty years, and says: "I was troubled with disordered kidneys for several years and was never able to get anything that would care me. At times I would have a very severe aching pain across the small part of my back and was troubled with nervousness and inability to sleep. When I read about Morrow's Kid-ne-olds I decided to try them, and obtained some at Chas. R. Goetze's drug store, who guarantees them or will refund the money. In a short time after I began the use of Kid-ne-olds are not pills, but Yellow Tablets, and are put up In wooden boxes, which contain enoush for about two weeks' treatment, and sell at fifty cents a box at Chas. We had been using coffee every morning, and it gradually dawned upon me that perhaps this was the cause. Without saying anything, I bought a package of the Postum Food Coffee and having been warned to look out and see that it was properly made, I gave my own special attention to it. For about a week we used it and not one of the family knew but what they were drinking the best coffee. When I finally told them that it was Postum, my husband laughed and said, "Let us continue on the Postum. I have been feeling very much better for the past week and didn't exactly know why." The difference in the whole family is very ragrked, and you can imagin I can recommend Postum with good grace and much pleasure. Mrs. Alice E. Scarlett, Yolo, Yolo County, Cal.

## A SUCCESSFUL EVANGE

Rev. W. A. Dunnett, a Man Whose Good Work Is Widely Known-He Relates Events in His Career of General Interest.

Threnghout Canada, from the western boundary of Ontario to the Atlantis Ocean, there is no name more widely known in temperance and evangelistic work than that of the Rev. W. A. Dunnett. Mr. Dunnett has been the Grand Vice-Councillor of Ontario and Quebec in the Royal Templars, and so popular is he among the members of the order that in Monthest them is a Royal Templars, and so popular great length of time under treatment by any one dector because of his timerant mode at the carry and of the survey of the order that in the carry parts of the survey of the Moutreal there is a Royal Templars council named "Dunnett Council" in his honor. For Montreal there is a Royal Templars council named "Dunnett Council" in his honor. For more than ten years Mr. Dunnett has been going from place to place pursuing his good work, sometimes assisting resident ministers, sometimes conducting a series of gospel temperance meetings independently, but always laboring for the good of his fellows. While in Smith's Falls a few mouths ago in connection with his work he dropped into the Record Office for a little visit with the editor. During the conversation the Record ventured to remark that his duties entailed an enormous amount of hard work. To this Mr. Dunnett assented, but added that in his present physical condition he was equal to any amount of hard work. But it was not always so, he said, and then he gave the writer the following little personal listory, with permission to make it public. He said that for the past kintees years he had been greatly troubled with a pain in the region of his heart, from which he was unable to get any relief. At times it was a dull, heavy pain, at others sharp and severe. Oftentimes it rendered him unit for his engagements, and at all times it made it difficult to move. His trouble was always visible to the public and frequently when conducting service he would give out and doctors had to be called in to attend him. This occurred to him in the Yonge Street Church, Torotor; the Raphist Church, Woodstock, N. B.; the Methodist Church, Carleton Place, Ont. On asonter occasion while presching to an audience of 2,500

great length of time under treatment by any one doctor because of his timerant mode of life. In the early part of the summer of 1890, while in Brockville assisting the pastor of the Wall Street Methodist Church in evangelistic services, he was speaking of his trouble to a friend who urged him to try Dr. Williams! Pink Pille, and next day presented him with a dozen boxes. "I took the pills," said Mr. Dunnett, "and I declare to you I am a well man to-day. I used to worry a great deal cover the pain about my heart, but that is all gone now, and I feel like a new man." All this the reverend gentleman told in a simple conversational way, and when it was suggested that he let it be known, he rather demurred, because, as he put it, "I am almost afraid to say I am cared, and yet there is no man enjoying better health to-day than I do." At that time, at Mr. Dunnett's request, his statement was only published locally, but now writing under the date of Jan. 215, from Fitchburg, Mass., where he has been conducting a very successful series of vangelistic meetings.
